

**APICS Professional Development**

**Dinner Meeting**

**Tuesday, September 17, 2019**

**Hilton – Greenville – 6 pm**

**“Using Blockchain Technology in the Supply Chain”**

**Presenter Louis Burroughs, Michelin**

The subject of my talk is the future of Blockchain in the Supply Chain domain. Starting with the basics of what makes a Blockchain, and moving to take a look into current and future efforts to use Blockchain technologies in order to strengthen the chain of custody and transparency within the Supply Chain.

Bio:

Louis is a Technical Expert with Michelin with over 20 years of experience in IT. Louis serves as a technical resource for all Java development projects built in North and South America, as well as integration projects. He also coaches Michelin teams in proper build and deployment processes to ensure consistent deliveries that satisfy customer requirements.

Louis is currently involved in a Blockchain POC for Michelin to track financial transactions inside of the Enterprise.

Louis hails originally from Cleveland Ohio and carries all of the baggage that comes with being a lifelong Cleveland sports fan. He is a 1988 Graduate of the United States Air Force Academy. Louis has lived in Greenville since 1998 and has 7 daughters spread throughout the state of South Carolina.
