

Professional Development Dinner Meeting

Tuesday, October 15, 2019

Hilton – Greenville, 6:00 p.m.

“Improve Inventory Control by Reporting Scrapped Materials”

Presenter – Carla J. Parvin

This presentation will look at data required to run the Inventory Control system correctly. Scrap is not always your fault – stuff happens – report it and improve it. There will be a short lecture followed by a simulation - While producing Jelly Bean Bar Bells, groups reported materials used and scrapped (or eaten!)

Carla Parvin, CFPIM, CSCP is a well-known APICS Instructor, Speaker and Workshop Facilitator. She worked previously for Thermo Fisher Scientific as an Inventory Analyst and Sourcing Specialist. Prior to that, she worked with several major firms throughout the Southeast in Supply Chain Management roles.

Carla has numerous Professional Affiliations:

- Lead Instructor for Train the Trainer at APICS International Conference 2015
- Lead Instructor for Learning Dynamics for Instructors at APICS International Conf. 2017
- Speaker at APICS International Conference, October 2000 & 2010
- Speaker at District meetings at least once each year since 2001
